

für Windows-Nutzer:

Klickt auf eine der beiden Download Varianten, der Download sollte bei beiden automatisch starten.

The screenshot shows the Shotcut website's download page for Windows. The navigation bar includes 'NEWS', 'DOWNLOAD', 'FEATURES', 'TUTORIALS', 'RESOURCES', 'FORUM', and 'MORE'. The main heading is 'Download'. A disclaimer states that downloads are free of malware, spyware, and adware. The current version is 21.12.24. Below this, there are links for 'GNU/Linux', 'macOS', and 'Microsoft Windows'. Under the 'Windows' section, it specifies '(64-bit Windows 7+)'. There are two columns of download links: 'Site 1 (FossHub)' and 'Site 2 (GitHub)'. The links are 'Windows installer' and 'Windows portable zip' for both sites. A red box highlights these links. To the right, there is a search bar and a 'Recent Posts' section. At the bottom right, there is a 'Get it from Microsoft' logo with the text 'To avoid ads and get automatic updates:'.

Öffnet dann den heruntergeladen Installer und folgt den Installationsanweisungen.

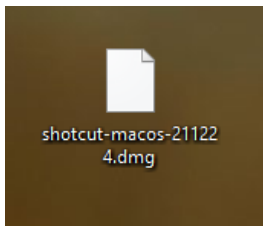

Für Mac Nutzer:

Wählt den Download für „macOS“ aus. Klickt auf eine der beiden Download Varianten, der Download sollte bei beiden automatisch starten

The screenshot shows the Shotcut website's download page for macOS. The navigation bar is the same as in the Windows page. The main heading is 'Download'. A disclaimer is present. The current version is 21.12.24. Below this, there are links for 'GNU/Linux', 'macOS', and 'Microsoft Windows'. The 'macOS' link is highlighted with a red box. Under the 'macOS' section, it specifies '(64-bit macOS 10.12+)'. A note says 'MOST PEOPLE SHOULD GET THE INTEL BUILD. ARM64 IS FOR THE NEW APPLE SILICON M1 CHIPS.' There are two columns of download links: 'Site 1 (FossHub)' and 'Site 2 (GitHub)'. The links are 'Intel macOS' and 'ARM64 macOS' for both sites. A red box highlights these links. To the right, there is a search bar and a 'Recent Posts' section. At the bottom, there is a note about an unsigned app bundle available on GitHub.

Öffnet dann den heruntergeladenen Installer und folgt den Installationsanweisungen. (Der Installer hat auf diesem Bild kein Icon, da es auf einem inkompatiblen Windows Rechner heruntergeladen wurde)

Solltet ihr „nur“ ein iPad neben eurem Smartphone besitzen, dann könnt ihr alternativ auch mit iMovie arbeiten
